**VERSION 1.0**  
**DATE: NOVEMBER 2024**

## 1. Introduction

Welcome to \$HOOD Coin, the rebellious meme coin that's here to shake things up and have a good laugh. We're riding the wave of crypto culture with our mascot: a badass bulldog smoking a cigar, embodying the true spirit of \$HOOD—bold, defiant, and a little mischievous. Built on the fast and furious Solana blockchain, \$HOOD Coin invites you to join the fun, chill with the community, and see where this wild adventure takes us.

## 2. The Problem (Or Is It?)

Let's face it: the crypto space is full of projects trying to change the world. But who said we can't have some fun while we're at it? The problem with many meme coins is that they promise the moon but deliver a rock. At \$HOOD, we're starting simple, with no lofty claims—just a good time and a chance to be part of something entertaining. If we grow, great! If not, hey, at least we had some laughs.

## 3. Our Vision (A Fun One)

Our vision for \$HOOD Coin is to become the meme coin everyone's talking about—one that doesn't take itself too seriously but knows how to party. We're here for the fun, the community vibes, and the thrill of the unexpected. And if we end up building something big, it'll be because of our amazing community.

# TOKEN ALLOCATION

**TOTAL SUPPLY: 1,000,000,000.**

- DEX Liquidity = 80%
- Airdrop & Community rewards = 5%
- Marketing and partnerships = 5%
- Team Allocation = 2.5%
- Future development and Reserves = 3.5%
- CEX Liquidity = 4%

# TOKENOMICS (KEEPING IT REAL AND SIMPLE):

1. Airdrop & Community Rewards (5%): 50,000,000 \$HOOD

Lockup: 4% for 3 months

Vesting: Gradual release (monthly) over 9 months after lockup

Why: This allocation is used to reward and engage the community. A lockup can help prevent whales from immediately selling airdropped tokens while still giving the community time to hold and participate in the ecosystem.

2. Team Allocation (2.5%): 25,000,000 \$HOOD

Cliff: 2.5% for 2 months

Vesting: Gradual release (monthly) over 10 months after the cliff

Why: To ensure that the team is committed to the project and incentivized for long-term growth.

3. Marketing & Partnerships (5%): 50,000,000 \$HOOD

Lockup: 4% for 3 months

Vesting: Gradual release (monthly) over 9 months after lockup

Why: Marketing and partnerships are essential for building the ecosystem. A lockup ensures these tokens aren't used too early for promotions or partnerships that could affect the token's price.

4. Future Reserves & Developments (3.5%): 35,000,000 \$HOOD

Cliff: 3% for 3 months

Vesting: Gradual release (monthly) over 9 months after the cliff

Why: Reserves are essential for unforeseen future development needs. Locking these tokens ensures they're only released when needed and helps avoid flooding the market too early.

5. DEX & CEX Liquidity: 4% (40,000,000)

Lockup: No Lockup, but Managed Release.

Why: You need enough liquidity for users to trade the token easily, but it's important to manage how liquidity is provided to prevent sudden large sell-offs.

## "Clarity on Liquidity Release"

For DEX and CEX liquidity (4% allocation), we will implement a managed release strategy to ensure smooth trading operations while maintaining market stability. Initial liquidity will be provided to facilitate trading and prevent slippage, with additional liquidity introduced gradually based on trading volume, demand, and market conditions. This approach avoids sudden large inflows or outflows that could destabilize the token price, fostering a sustainable trading environment for \$HOOD holders.

## Risk Factors & Disclaimers (The Serious Stuff)

Alright, listen up: Like any crypto project, there are risks involved. The value of \$HOOD may go up, down, or sideways. We're not financial advisors, so invest wisely and never more than you can afford to lose. No guarantees, no promises—just good times.

**Get ready, \$HOOD Army! The Bulldog's journey is just beginning – and we're coming for the top. Whether you're here for the memes, the coins, or the journey, \$HOOD Coin's got a spot for you in the pack!**
